

IGU-Hyderabad Student Chapter

The Indian Geophysical Union (IGU) Hyderabad Student chapter was set up in 2016 with its headquarters at CSIR-NGRI, Hyderabad. IGU Student Chapter Activities are

Activities on Geoscience Day

Theme of the event was "Role of Geoscience in Environmental Sustainability"

Event comprised of competitions such as:

1. Quiz
2. Speech: Topics for speech competition were
 - a) Consequences of over-exploiting earth resources
 - b) Role of India in conquering present energy challenges
3. Essay: Topics for essay competition were
 - a) Role of geoscience studies in environment sustainability
 - b) Symbiosis between earth and humans

CSIR-NET Interaction classes

- ❑ In order to help the students in cracking the prestigious CSIR-NET exam, the student chapter has started an initiative for training the students for this exam.
- ❑ In this program, we organize an interactive session between CSIR aspirants and those who are experts in their respective fields of geoscience, such as Geophysics, Geochemistry, Oceanography etc.
- ❑ This also helps in increasing the overall knowledge in geoscience rather than just concentrating in only one field.
- ❑ This initiative has witnessed a great success among students.
- ❑ Our chapter will be continuing this interactive session in future as well.

Course work by

Dr. Dhananjay Kumar

(Geophysicist : BP, Advanced Seismic Imaging, Upstream Technology, Houston)

On

Quantitative Reservoir properties prediction

- ❑ This event was a one day course work divided into two sessions
- ❑ Morning session was dedicated to the basics of Qualitative Reservoir properties prediction and its workflow.
- ❑ Afternoon session was dedicated to predicting the reservoir properties after geophysical inversion.
